

The Reli® Wealy® safety syringe meets requirements for a safety engineered sharp as set by the OSHA Bloodborne Pathogens Standard 1910.1030[b]. Passive retraction of the contaminated needle and containment within the syringe plunger minimize chance of injury and reduce the disposal footprint.

Features and Benefits

- OSHA-compliant safety engineered sharp
- Passive activation of the needle retraction safety feature eliminates capping step
- Easy, single-handed operation
- Low dead space
- Color coded for easy needle gauge identification
