

Confiderm® LT Latex Surgical Gloves

McKesson Confiderm® latex surgical gloves are designed to serve as a first line of defense in the fight against infection. They are sterile and textured to ensure protection. The natural rubber latex provides surgeons with high tactile sensitivity during critical procedures.

Features and Benefits

- Tested for use with chemotherapy drugs
- Lightly-textured fingertips
- High tactile sensitivity to improve durability during medical procedures
- Packaged in dedicated left/right sterile pairs
- Made of natural rubber latex
